

## We are

... a team of 25 people, 10 years old, working from our Belgrade office with clients worldwide. Our projects include sales platforms supporting more than 200.000 buyers across the USA daily, as well as important apps in Serbia, such as Halo Beba and Otvoreni parlament. We're also developing our market products such as [OfficeBite](#), [Early Game Alarm](#), and [Cut Expenses](#).

## Frontend Developers (*medior/senior*)

### You are good at

- HTML5
- JavaScript (ES6 and newer)
- CSS3 and preprocessors (Sass, Less...)
- HTTP/HTTP2.

### You're experienced with

- JS frameworks (React, Angular...)
- Package management tools (npm, yarn...)
- Build tools (Webpack, Gulp...)
- Version control systems (such as Git).

### Nice to know

- Typescript
- Testing frameworks.

### Skills we highly appreciate

- Understanding cross-browser compatibility issues and ways to work around them
- Understanding best practices of CSS code architecture (BEM, SMACSS)
- Engineering architecture for scalable and performant applications.
- Basic understanding of agile software development methodologies

### You have

- 3+ years of background in Frontend development
- Working knowledge of English
- University Degree in relevant subjects is a plus! (Faculty of Organizational Sciences, Faculty of Technical Sciences, Faculty of Electrical Engineering or similar).

### We offer

- Full-time or part-time position (depends on you)
- Self-organized teams (2-5 people) who value creative and independent work
- Flexible working hours and home office possibility
- Working on both client projects and our market products
- Training and personal development programs
- Team building activities
